

# MAKINTRAX®

## BBQs

**Bigger  
Stronger  
Better**

**7** reasons to buy a **MAKINTRAX** BBQ

- 1 We supply and install BBQs.
- 2 Kingsize BBQ plates - largest and strongest on the market - 40% more cooking surface and 5mm thick to reduce warping and increase heat retention.
- 3 304 food grade stainless steel hot plates.
- 4 Gas or electric and no gas wasting pilot light.
- 5 Push-button or coin-operated ignition.
- 6 Cabinets require no assembly and are available in stainless steel cladding or powder coated in a range of colours.
- 7 Australian made for over 25 years with two year warranty and full range of spare parts.

Orders can be customised to include sinks, extended food preparation areas, shelters and shelving.

# BBQ Cabinets

- Absolutely no assembly required: simply pour a slab and bolt down the pre-assembled cabinet. Or we can install for you
- *Single, Double* or *Cube* cabinets
- Electric cabinets in *Queensize* (3.5kW or 6kW) or *Kingsize* 6kW
- Gas cabinets in *Kingsize* only
- *Queensize* cooking area 460mm x 460mm; 3mm thick hotplate. *Kingsize* cooking area 680mm x 590mm; huge 5mm thick hotplate
- Push-button or coin-operated ignition
- Strong, durable, moveable and secure cabinets
- Fully galvanised frame
- Stainless steel cladding or powder coated in a range of colours (images shown in Hawthorn Green option)
- Non-corrosive and durable stainless steel benchtop for food preparation
- Cabinet locks are keyed alike for multiple orders and can be matched to your key
- The *Cube Cabinet* is a compact cabinet designed to house one BBQ. Built to the same quality as our two larger sizes.

## The Single Cabinet

**W** 1390mm x **D** 750mm x **H** 950mm

\* Model shown with *Kingsize* hotplate option

## The Double Cabinet

**W** 2070mm x **D** 750mm x **H** 950mm

\* Model shown with *Queensize* hotplate

## The Cube Cabinet

**W** 900mm x **D** 900mm x **H** 900mm

## Gas or Electric

Build-in BBQs are inserted into new or existing brick/stone housing
